

Assignment: Lips Drawing and Shading

When drawing and shading human lips, we must pay close attention to the texture as well as the lights and shadows. Your hand pressure better be controlled and use the eraser wisely.

Steps:

1. Draw the five circles that form the shape of the lips.
2. Consider the triangle depicting the angle and the size of the lips.
3. Start drawing the outline of the lips.
4. Gradually add the layers of shading.
5. Consider the light spots.

You can download the outlines from the downloadable resources section.

Challenge:

- Now, try to draw and shade these lips using the same methods and techniques.
